(INTRO)

As I think, of how the stars aligned, And put us together for another time

This could never happen, by, design

I knew what's best for you, I knew it all, But there were many times we had a ball

In the end, I had to take a fall

(CHORUS)
(a)

We have a history, (history) I knew you back when

We have a history, (history) When we were such good friends

We have a history, (history) That put us back together again

There's a side of me I never, knew

There's a reason you were brought to me, I finally felt the pain that made me see

How to live with you in harmony

(CHORUS)
(a)

(BRIDGE)

It's like it was, in the beginning, We're back to seeing, eye-to-eye

My world is such a better place again, You've given me the, reason why

(2)
(1/2)

As I think, of changes I've been through, And how close, I came to losing you

There's a side of me I never, knew

We have a history, (history) We've stayed together as one
